Office Action Summary	Application No. 10/568,016	Applicant(s) ROSENMULLER ET AL.	
	Examiner Thomas M. Sember	Art Unit 2885	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-8 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 9-10 the recitation of “at least in an upper area facing towards the burner 12” is vague and indefinite because it is unclear what structural element applicant is referring to as the “upper area”.

As best understood the following prior art rejection applies:

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 6-7 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Helbig et al '569. Helbig et al '569 discloses a burner 10, a holding device 12 made of metal, which is secured to the burner 38. And a bottom section 14 made of plastic, wherein the bottom section exhibits an opening in which a base sleeve 13 made of metal is disposed, which is connected to the holding device, and wherein, at least in an upper area facing towards the burner, the inner wall of the opening and/or the exterior of

the base sleeve 13 is provided with projections (13a or 13b) such that, along its periphery, the base sleeve 13 does not bear against the bottom section 14 over its entire surface.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Helbig et al '569 in view of Krefft et al '803. Helbig et al '569 discloses the claimed invention except for the teaching that cooling fins or slots are positioned on exterior of a bottom section. Krefft et al '803 teaches cooling fins 26 positioned on a bottom section 11. It would have been obvious to one skilled in the art at the time the invention was made to position cooling fins 26 on the bottom section of Helbig et al '569 as taught by Krefft et al '803 in order to efficiently cool the lamp of Helbig et al '569.

Allowable Subject Matter

4. Claims 4-5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. Claim 9 is allowed.

Conclusion

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Forgac et al'929, Nace '167 and Esakoff '491 disclose lighting assemblies which are similar to applicant's invention.
